

# MASTISOL®

## SPECIAL SEALANT ANTI RODENT INTRUSION (PROOFING)

Rodents are often the source of nuisance and cost intensive damages (cut through cables and fibre optic lines, damaged electronical components, ...).

MASTISOL® is a single-component, ready-to-use rodent resistant mastic. Manufactured out of special resins combining olfactory and tactile repellents it creates a physical barrier that prevents rodents from entering. MASTISOL® prevents pests from entering into the masonry and other small openings.

MASTISOL® is already used by RTE, VNF, ORANGE and other public and private companies.

Application videos please see our internet site.

## AVANTAGES

MASTISOL® is an anti rodent intrusion sealant (proofing):

- Proven: thousands of buildings in Europe are protected
- Efficient: creates a physical anti intrusion rodent barrier
- Resistant to attacks of animals that dig (rabbits, ferrets, weasels, ...)
- Fire and water resistant after sealant is hardened
- Good adhesive characteristics
- Easy to install
- Does not damage electric cables
- Long life

## INSTALLATION

- Use MASTISOL® in dry conditions on dry and clean surfaces.
- Use a spatula to even.
- Once hardened the sealant is hard and black.
- MASTISOL® is applicable on various different surfaces – except on greasy ones.

## TECHNICAL DATA

NAME	MASTISOL
Material - Colour	Paste – dark grey
Material density at 20°C (g/cm³)	1,6
Fire resistance	B-s2, d0 (EN 13501-1)
Water resistance	When dry water resistant
Shelf life	18 months
Handling temperature (°C)	+5° up to +60°
Drying time	1-3 days, depending on humidity
Storage	5°C up to 30°C in an air permeable dry place, protected against direct sun exposure
Environmental compatibility	Halogen free
Packaging	Bucket of 7 kg and cartridges of 310 ml
