

SOLTEC® V3300/V3303

SONIC AND ULTRA SONIC PEST EXPELLENT DEVICES

Rodents are often the source of nuisance and cost intensive damages (cut through cables and fibre optic lines, damaged electronical components, ...).

The SOLTEC® devices work with a wide sonic and ultra sonic frequency spectrum. They are placed temporarily or continuously in the area to protected. The devices do not prevent pests to re-enter the installation, but they do not stay and are not nesting in the area.

The SOLTEC® devices are already used by SNCF, RTE, VNF, ORANGE and other public and private companies.

Application videos please see our internet site.

Device type	Time-out button	Power cable length	Use
SOLTEC® V3300	1h, time-out button integrated in device	2,95m	Standard
SOLTEC® V3303	1h, time-out button at end of 2,95 m cable	2,95m	For set up under technical floors
SOLTEC® V3300 9/36V	1h, time-out button integrated in device	2,95m	Can be connected to batteries in vehicles and earth moving equipment

ADVANTAGES

SOLTEC® devices:

- Proven: Thousands of buildings in Europe are protected by them
- Efficient: 3 speakers for an optimum area coverage
- Unique: the frequencies change random wise in a preset spectrum
- Time out button: devices can be stopped for 1 hour, so that people can work in the area without being disturbed. Time out activated by pressing the button.
- Robust: Dust and humidity protected (IP67)
- CEM conform
- Made in France
- Long life: 4 years warranty
- Compact: can be used everywhere
- Environmentally friendly: low energy consumption

INSTALLATION

- Place the device on a stable support, 20 to 30 cm above ground, backside to the wall and speakers into the directions where pests shall be expelled and connect to the power.
- Stick „Device in use“.
- Make sure that no obstacle disturbs the sonic and ultra sonic waves.
- Success is seen immediately. Optimal effect after 1 to 2 weeks.
- Device for use inside buildings.

TECHNICAL DATA

Technology	Electronic in ABS housing. Spred of sonic and ultra sonic waves.
Dimension / Weight	12 cm x 8 cm x 10 cm / approx. 0,500 kg
Power supply	Power supply: 100-240 V, 50/60 Hz. Battery supply: 9-36 V
Energy consumption	2,5W
Dust and Humidity resistance	IP67
Covered area	100 m ² depending on configuration of area
Usage	Inside buildings
Warranty	4 years

DEPENDING ON THE SITE TO BE PROTECTED WE RECOMMEND ALSO OUR OTHER ANTI RODENT INTRUSION PRODUCTS:

BROSSOL®-ROD

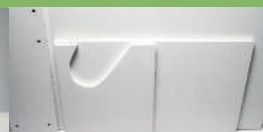

WAROSOL®T

MASTISOL®

COVERSOL®

PANOSOL®

BROSSOL®N
